**Wiring an RJ11 cable for dsl modem Technical Issues**
April 12th, 2019 - The socket on the ADSL faceplate will accept an RJ45 plug and if the
wiring follows usual CAT5 wiring i.e. one pair on the centre two pins then a normal CAT5
cable should be fine At the modem end you would need the plug to be an RJ11 plug and
the adapters may be an easy solution if you have an existing pre made RJ45 terminated
cable
